

Church Notice.

Services every Sunday, at 10:30, at the Methodist Episcopal Church, on Marina street, Prescott. Sunday school immediately after service. Rev. D. B. Wright, Pastor. Rev. Mr. Wiley, Methodist South, will preach at 11 A. M. and 7 P. M. early Sunday, at T. H. Head's house, on McCormick street.

SPECIAL NOTICES in the reading columns will be charged at the rate of THIRTY CENTS per line for first insertion, and twenty cents a line for each subsequent insertion.

Local Intelligence.

From Saturday's Daily.

Our associate is out in the mountains "picking" round after mining items. We shall expect a batch from him for Monday's MINER.

The races at Williamson Valley, on the 8th, were quite well attended, and we hear that Mr. Breed did a good business.

Robt. Garside, of Kirkland, Al Doyle and Nathaniel Bowers, from Agua Fria, and others are in town yesterday and to-day.

The weather is cloudy and threatening to-day, seeming to portend a snow-storm.

Wagons were unloading goods at several stores in town yesterday, and Tom Sanders is expected in to-day or to-morrow with several wagons in a train.

Since our item, several days ago, with reference to Miller Bros.' new wagon road to Skull Valley, we have ascertained that we were wrongly informed, and that the road is not yet completed. The brush is all cleared out, but the grading is not done.

By reference to the manifest of the last steamer from San Francisco, it will be seen that there is almost a frightful amount of freight on the way to Prescott, and this does not include the mammoth shipment of C. P. Head & Co., which is coming by way of the S. P. R. The prospects are that within thirty days there will be more goods in Prescott than ever before.

The Senator mill house, we learn, is being put in readiness to receive the new machinery which is on its way out from California, and the new mill with its barrel attachment will no doubt constitute the best reduction works in the Territory.

Teddy Nichols, Division Agent C. & A. Stage Co., returned a day or two ago from Piche, Nev., where he has been looking after mail matter. The company own the horse-back route from Mineral Park to Piche, Col. Ike and Mrs. Jennings, at St. Thomas, sent us their regards by Teddy, for which we are much obliged, and, in return, express the hope, which we have long un-derstand, that they may make an independent fortune as grangers, and live long and be happy.

We have hitherto neglected in our election reports to chronicle the fact that Judge Hezikiah Brooks was elected Public Administrator, and Dr. Warren E. Day, coroner for this county, on Tuesday. These two offices are more important, by the way, than many imagine.

Hon. C. C. Bean, we learn is fast getting well of the shot in his knee, but is still unable to be up. It is thought he will have the partial use of the joint at least.

CHRISTMAN & CO., we learn are down some 20 feet on the Kit Carson mine, and find no difference in the character of the vein matter between it and the Silver Plake, which it follows, and which the one is a continuation of the other. Tim Gleason went out a few days since to take a look, and says they are taking out good pay ore in considerable quantities. The ledge has become sufficiently solid as to require blasting and the first shot was being put in when Tim was there. Report says the ore taken to Agua Fria furnace from this mine has run all the way from \$500 to \$1,200 to the ton.

From Monday's daily.

It is perhaps useless to say to those who read the dispatches to-day that absolutely nothing more is known or can be conjectured as to which of the candidates is elected President. The reports are so conflicting that they are almost worthless, and yet they are the best that can be had on this coast.

The C. & A. Stage Co. has built a large addition to their barn accommodations corner Montezuma and Carlton streets.

We have no news whatever from beyond the Mogollons. Flying reports are in circulation, but we can trace them to no authentic source.

The up river steamers, leave Yuma to-day for Ehrenberg and Hardyville heavily loaded with freight.

Arizona papers are requested to copy a notice of the death of John Douglas, a native of County Cork, Ireland, aged, 47 years, who died at Weaverville, Cal., Nov. 3, 1876.

There are reports about town, that the returns from Clifton have been received, but if it be true, it is by private dispatch. Neither the regular Press reports nor Club dispatches have had anything to say about it.

Frank Murray visited the Kit Carson mine yesterday, and was much pleased with the development being made by Christman & Co. Mr. Christman sent us a beautiful specimen of the ore they are now taking out, full of chlorides and horn-silver with crystals interspersed. The vein is now two feet wide at a depth of 30 feet, and promises, with its twin sister—the silver Plake, to be one of the best mining properties in the county. Our relation to the Kit may render a little partial and perhaps over sanguine, but we will be pardoned for expressing the hope, based upon pretty good evidence, that there are millions in it.

If you want to make good bargains go to R. V. Cram's VARIETY STORE.

BULLION SHIPMENT.—On Saturday Dr. Goodfellow, Superintendent Arizonian mill, went to the office of the Peck Mining Company, the result of four days run with five stamps, for account of Anders & Rowe. There were six bars of silver bullion from the mine, weighing in the aggregate, 8,446.30 ounces. Assay value, \$10,805.00. Average richness, 994.

E. M. Alexander just in from the Peck reports the rich pay ore streak from Sinches to the wide.

Howey's building is being ornamented on the south side with a shed for Goldwater and ware house.

Anders & Rowe are having Black Warrior ore worked at the Agua Fria furnace.

Choice California and Salt River flour at VARIETY STORE.

We have been asked to publish the vote for County Treasurer, the fact is we can't get it to publish. Those who have brought returns from the various precincts have confined themselves to the delegate and Sheriff to the exclusion of all other offices, and the candidates for Treasurer know no more about it than they did before election, except that there is an impression that Cook is elected.

A choice stock of fresh candies at the VARIETY STORE.

Several of Miller Brother's teams are in town to-day unloading at Bashford & Co's. Campbell's, Buffum's and Ellis', beside odd packages scattered all over town.

On Sunday evening we accompanied Parson Wright on one of his marrying excursions two or three miles into the country, got lost in the darkness, wandered about among the rocks and brush above Clearwater's place for some time but finally came out at the right spot, witnessed the ceremony and returned by the same conveyance that took us out, viz., watched our chances and walked. The marriage will be found duly recorded in its proper place in this issue of the MINER. Being unacquainted with the parties we shall not take the liberty of speaking too familiarly of them, but venture the remark, and dare any one to dispute it, that the bride is really handsome.

ELBOW DISLOCATED.—C. C. Charlton came to town on Saturday to have his elbow treated which was dislocated the day before by being thrown from a horse in Jordan Wash near Williamson Valley.

Choice bacon at H. V. Cram's VARIETY STORE.

C. C. Bean has had a restless night or two with his shot knee, which he charges to a change in the weather. The ball is now easily located, and can be felt with the finger, on the under side of the leg.

Tip Wilder went home yesterday with a wagon load of grub to hole up like the bears until Spring.

From Tuesday's Daily.

Mr. Morrison, Superintendent, S. M. Wessels, Foreman, John Robinson and Mr. Nash, brick layers, are in from Walnut Grove and report the Pinal Co's. furnace about ready to start up. They are now only awaiting the delivery of charcoal and ore, which will probably be on the ground within a week, when we shall hear the result of their first run on Crescent ore.

Charley Beach and family, of Kirkland Valley, having returned from the East are visiting friends in California and Nevada. They are expected home in a short time.

The accidental mine, on Lynx Creek, continues to turn out gold bullion in paying quantities. The Thunderbolt mill, which works the ore from this mine, is a steam-engine driving arrastras, and though but little has been said about it, it is believed that throughout the season it has perhaps paid as well, in proportion to the capital invested, as any property in the Territory.

The "Dew Drop Inn" is the sign that Lew Alter has put over his place of business, opposite Barnard's Horse-Market, on Montezuma street.

Mr. Storm, who runs the grub department of the Pinal Co's works at Walnut Grove, is in town, and we should judge that he sets a good table, taking his own appearance as a criterion.

Misfortune Paul Weber, who last week had the judgment to have his leg broken at Schoey's place, at Camp Huapal, has been brought to town, and is getting along finely. He is young, healthy and of a vigorous constitution, so that the chances are he will be around kicking up his heels in a few weeks.

We hear some doubt expressed as to the legality of the vote at Clifton, based upon the statute that requires the certificate of a voter to be a transcript from the great register, whereas it is claimed that inasmuch as the certificates were issued first, in this instance, and the names placed upon the register afterwards, the register become a transcript of the certificate, and not the certificate of the register. We give the matter as we have heard it discussed, without attempting to decide whether there is anything in it or not. Should it be thrown out it will make quite a difference in the result of the election.

The returns from Clifton, unless the Little Colorado country goes solid for some other of the candidates, has pretty certainly elected Stevens for Delegate, Bowers for Sheriff, Cook for Treasurer, and, perhaps, Rush for Council. Though we have no figures on the latter two offices to base a calculation on, and will have to await the official count, on Monday next, before being able to give figures at all reliable.

Williscraft & Co. will have their Photograph Gallery at Verde about the 20th, ready to take pictures.

The brick-kiln at Harris' yard, in the upper end of town, has been burning several days, and is about ready to have the fires drawn. Mr. Drake, the proprietor, informs us that the kiln contains some 150,000 bricks, 75,000 of which will be used in building John G. Campbell's new residence.

No changes in the figures for Delegate or Sheriff since yesterday, except the report from Clifton, which adds 104 to Stevens', 105 to Bowers' and one to Oury's vote; which, according to Bowers' figures, puts him 250 ahead of Behan, with Apache, Little Colorado, Springerville and Sunset to hear from. Behan's figures reduce Bowers' majority to 159, with the above precincts to hear from. If our calculations of yesterday are correct, the count stands for Delegate, as far as heard from: Hardy, 1,045; Oury, 902; Stevens, 999.

The marriage notice of Mr. Thompson Allred and Miss Rebecca Robbins should have appeared yesterday, but was overlooked.

Howey has the frame of his new blacksmith shop up and ready to roof. It is located between the store of Goldwater Bros. and Mrs. Green's lodging house.

Chas. Pletz, Jr., Asst. Assayer at the Arizonian mill, gives a good account of the workings of the institution. He says if rich ore keeps coming from the Peck mine, they will soon make silver bricks enough to build a small house. Those, recently sent in, are more like adobes in size, than like bricks.

FATAL ACCIDENT.—A young man named Hawkins, who resided with his parents, near Camp Verde, was thrown from a bronco camp last week, receiving severe internal horse, last week, receiving severe internal injuries, from the effects of which the poor fellow lingered but a few days, and died about last Friday. Deceased leaves a sorrowing father and mother, and was brother to Mr. Hawkins of Chino Valley.

Several new buildings have recently been put up on Marina and Alarcon streets, back of Col. Bigelow's Castle, up near the foot of the mountain, near the corner of Leroux and Walker streets.

W. Lane, has established a butcher shop in Wormser's building nearly opposite the MINER office, where he keeps all kinds of meats; Sausages, Head-cheese, Vegetables, etc., etc.

From Wednesday's Daily.

Lovers of music would do well to attend the nightly and daily serenades which have become of late quite a feature of and emanating from the Village Calaboose.

Marshal Murray is doing quite a hogging business as ex-officio poundmaster, which should be a warning to those possessing swine to corral them at home.

The Whipple Minstrels are making arrangements to give a grand performance at Luke's Hall about next Wednesday.

The bachelors of Prescott are organizing for a grand social to be given on Thanksgiving Day, November 30th.

ANOTHER WEDDING.—The nuptials of Mr. Jesse Ellis to Miss Youre take place at 4 P. M. this day at Williamson Valley. Perfect quietude will exist, we predict, during the ceremony at least, the wisdom, strength and beauty of the Sheriff's office being present.

IMPROVEMENTS.—The remodeling, re-flooring, etc., of the Arizona Brewery is in contemplation by the worthy proprietor Jul. N. Rodenburg.

The residence of Sheriff Bowers on Marina street is to be plastered and other extensive improvements to be made at once.

George Barnard is building extensive additions to his stables at the Horse Market. The main stable will be 170 odd feet in length when completed. He has also sent inside for a large red-light lantern, which has arrived and will be hung up in the binnacle. A red light in railroad means danger, therefore he warns teamsters to put on the brake when they see the signal.

Thos. Cherry has shown us two assays made by Kelley & Drew, one from the None Such mine, situated on Slate Creek, which yields by assay \$303.55 to the ton. The other is from the Bedbug lode on Hassayama and only went \$33.94.

Severno Chavis was arrested this morning charged with having forged an order and attempted to pass it upon John G. Campbell. Chavis says he bought it from another Mexican, which Mr. Campbell suspects to be the truth, but had to begin on the man in whose possession the paper was found in order to arrive at the real state of the case.

John H. Marion, having rented his place at the mouth of Granite Creek, has removed back to town with his family, arriving late yesterday evening. We understand that he has taken the position of Editor of the new paper about to be started here.

We want to let a contract to sink 50 or 75 feet on the Goodwin lode. Apply to Collier & Hatz, or M. Masterson.

Three of Rowell & Taylor's heavy teams came in this morning loaded down to the guards with goods for Goldwater Bros.

The Little Colorado mail will be into-morrow evening when we may reasonably expect to hear from some if not all, of the precincts west of the Mogollons. The questions to Sheriff will be definitely settled, provided they all come in, and the agony will be over so far as that office is concerned. For Treasurer, neither the candidates themselves nor any one else has kept the figures with sufficient accuracy to tell anything about it and if the contest shall be any way close, after hearing from that country, the official count will have to be depended on for information as to who is elected.

From Thursday's Daily.

See Hemphill's notice to doctors. SHOT HIMSELF.—A stranger whose name we could not learn, accidentally shot himself in the fleshy part of the thigh, at the Cabinet Saloon last night, with his own pistol, inflicting a painful, but not necessarily dangerous wound. He is said to have recently arrived here from Idaho.

James Graham, who was Division Agent for the A. & N. M. Express Co. during its life time, and more recently wagon boss for Crit Bryan, came up from Wickenburg by stage a few days since and is doing the town.

J. W. Knott, whose leg was fractured some two or three weeks since, and who has been lying in a critical condition ever since, is more comfortable, and hopes are now entertained that he will ultimately recover, but it is thought that his leg will have to be amputated.

Robert Garside, of Kirkland Valley, has been spending several days in town, and started home this forenoon.

If it would do any good to lay before the reader the difficulties under which the news gather labors, especially after the excitement of a closely contested election has partially subsided, we should adopt the rule so often indulged in by country editors and bore our patrons with an homily on the dullness and insipidness of the times. But as each one can but see for himself that items of an interesting character are exceeding scarce, the difficulty of finding them where they do not exist will of course suggest itself, and save us the trouble of calling attention to it.

No change in the figures for Delegate since day before yesterday. There are rumors of returns from Little Colorado but nothing to depend on. The election is evidently too close to determine without the official count, and that we will not get until Monday.

The Daily Hotel Gazette for business men and travelers is a new feature of San Francisco journalism. The paper is published by Miller & Richard, and the intention is to publish a complete list of all the hotels on this Coast and on the principal lines of travel in the East. We observe the Dudley House, Dudley & Williams proprietors; Elliott House, Florence, W. V. Elliott proprietor; Montezuma House, Prescott, C. A. Luke proprietor; Palace Hotel, Tucson, proprietor; Grand Hotel, Yuma, G. W. Blair proprietor in its list.

Notice.—All parties indebted to me, are hereby notified to pay the amount of such indebtedness to J. L. Fisher at his office in Prescott, before the last day of December next, thereby saving costs. W. L. HEMPHILL. Wickenburg, Nov. 16th 1876.

LEGAL BLANKS, Of Every Class and Kind, Always on hand and for sale, at the MINER office, as low as a lawyer, justice of the peace or other officer can reasonably find fault with.
